

Premium Quality Business Broadband

iNet
INTELLIGENT NETWORKS

Corporate Premium *Plus* Broadband Up to 16 Mbps download, Up to 1Mbps Upload

2+

Overview

Corporate Premium+ is perfect when you require high end, high speed, robust business strength broadband.

Features

Premium is ideal for professional heavy use and includes some impressive features.

It provides an unlimited transfer allowance (subject to fair use policy), with a guaranteed download speed of 500Kbps.

Other features are free e-mail with anti-spam and anti-virus controls. It also has 100Mb of webspace and a static IP.

Support

First class support is all part of the service. Our broadband package includes include dedicated online technical support from Digitel, should the unexpected arise.

Technology

ADSL 2+ is the product of improved technology. It provides a more consistent platform for broadband and for most, an increase in download speed by doubling the frequency band used.

Our broadband packages which feature the 2+ symbol enjoy speed boosts where the exchange technology permits.
